OFFER FOR PROVIDING TRANSPORT SERVICES AND THE PRESENTATION OF COMPANY

Dear Sir or Madam,

TRANSPORT KLEMEN d.o.o.
Ratež 71, SI-8321 Brusnice, Slovenia

24h Mobile.: **+386 (0)41 863 431**, Phone.: **+386 (0)7 30 85 558**, Fax: **+386 (0)7 30 85 559**
E-mail: info@transport-klemen.si, Web: <http://www.transport-klemen.si>

1. THE PRESENTATION AND HISTORY OF THE COMPANY

The beginnings of the craftsman Matjaž Kovačič, which have later developed into the brand name Transport Klemen, reach back to the **year 1988**. Before the Slovenian war of Independence, the transport activity accounted for 80 percent of the transport services in the area of the former Yugoslavian republics.

In 1991 it was necessary to reorganize in relatively short time, perhaps even safe to say: start all over again. **In 1994** Matjaž Kovačič renamed and registered a new name for the company: Transport Klemen, Matjaž Kovačič s.p. The company operates in the Slovenian area and transports up to 24 tons of cargo to France and Germany.

In 2016, Mr. Klemen Kovačič carried out a status transformation of the company Transport Klemen, Matjaž Kovačič s.p. into a new company: Transport Klemen d.o.o. In agreement with the transformation and its associates, Mr. Klemen Kovačič became the full owner and CEO of the new company **Transport Klemen d.o.o.**

Therefore, we are carrying out transport services for you **since 1988!**

We are located in the vicinity of SI-8000 Novo mesto, Slovenia, which is a transit point of Ljubljana-Zagreb!

OPERATION OF COMPANY

In all our years of service and updates, we are available to our clients **24-7** throughout the year. With more than 25 years of business experience, we have optimized our response time from admission to the completion of the order. Our drivers are professionally trained and highly conscientious, since we have not noted any complaints. We are also known as the **in-house transporter of internationally successful companies!** We continuously update our **business management technology, vehicle fleet and obtain certificates within the company, educate personnel, cooperate with language schools as well as carry out permanent measures to save operating costs**, in order to assure quality and trust of our partners in the long run! For shipments within the EU we operate under the CMR Convention, with CARGO insurance. All your orders are our **concern and are treated with confidentiality**, protected by contractual clauses in compliance with the transport of goods.

2. SERVICE OFFERS

We offer transport and logistics solutions for Slovenia and Europe. Our vision is to carry out all the orders within the shortest possible time limits. For the provided services we offer goods vehicles of different capacities. Regardless of the distance of shipment from Slovenia, we can make the deliveries within 48 hours all over Europe. In Slovenia we establish a 24-hour assembly center on the route Brežice-Ljubljana-Jesenice.

TRANSPORTATION:

- COMPLETE LOADS
- PARTIAL LOADS
- EMERGENCY LOADS/SHIPMENTS
- ADR LOADS
- MEGA 3, 00m HEIGHT of the LOAD
- AUTOMOTIVE CARGO
- JUST IN TIME

LOGISTICS:

The knowledge of the cargo transportation specifics, a modern vehicle fleet and a team of colleagues in close relations with an excellent logistics plan, contribute to the speed and reliability of deliveries. We organize a complete logistics services for you, providing our own vehicle fleet, reloads and storage. In mutual agreement with your customers for cargo assumption, its storage and delivery within the agreed deadlines. The distribution of shipments within Slovenia, as well as the possibility of daily dispatch of goods, based on your wishes.

If we need sub-transporters for urgent shipments, we have an arrangement based on a transport contract with additionally concluded CARGO insurance. Your orders remain protected and treated with confidentiality in agreement with clauses under the transport of CMR-goods Convention.

Many difficulties can arise when "logistics companies" choose transporters without arranged and fixed insurance in compliance with cargo specifications, bad communication, unfamiliar with transport specifications, etc.

TRANSPORT KLEMEN d.o.o.

3. IMPORTANT FACTS

The vehicle fleet is equipped with the GPS tracking system and cargo security since 2006. We operate with an advanced transport and logistics program.

If, during the arrangements, we find the customer requires new capacities or different types of cargo, which does not fit our facilities, we act immediately and enable our own cargo capacity with all the necessary certificates and equipment, according to the customer requirements!

Contracting companies trust us with an average of **10 years**, some already **20 years**.

We are a transport company, which is a part of the production process that cannot allow itself any errors. We organize cargo deliveries that immediately continue into production (automotive manufacturing) every day.

We deliver cargo for many businesses that operate on the principle "**JUST IN TIME**" (automotive manufacturing).

4. PRICE

The price depends on your transport requirements.

For long-term contracts with the customer, we coordinate a fixed price that is sealed by a contract.

The latter indicates trust, quality and a long-term cooperation!

If our presentation or offer proves of interest to you, please let us know about your requirements via the contacts above, or directly "what kind of services do you need."

For the most accurate price quote, we need all the important information (**cargo types, dimensions, distance loading/unloading, cargo tonnage, transit times, changing pallets, one way, re-tour**).

Thank you for your time and kindest regards,

Ratež, 11/09/2016

CEO:
Klemen Kovačič
